

ANGLERS WANTED

Pine Lake Citizen Science Project

The Asek Renewable Resource Council and Environment Yukon are looking for local support to continue lake trout population monitoring in Pine Lake.

- ∩ We are looking for **12 anglers** interested in participating in a one evening survey session on **June 6**.
- ∩ This project is part of a long-term recovery plan for Pine Lake. **Up to 25 lake trout will be sampled** to provide further information on the population including; size and age structure, diet and contaminant status.
- ∩ **Registered anglers will have an exemption to the Yukon Fishing Regulations** for this project and will be asked to target and retain lake trout to provide to on-site biologists for sampling. Anglers can keep their fish after it has been sampled. All other general rules will be followed.
- ∩ Anglers must have a valid Yukon Fishing License and provide their own boat and gear.
- ∩ Further details will be provided to anglers upon registration
- ∩ **You must pre-register for this event: Registration will take place on a first-come-first-served basis in-person at the ARRC Office, or by calling 634-2524, Monday, June 5th from 8:00am to 4:00pm**
